### PATRICK'S PLEA IS GRANTED.

Test of Embalming Fluid to Be Made on Two Corpses.

New York, March 30.—Four years after the date on which he was convicted of the murder of William Marsh Rice, the Texas millionaire, Albert T. Patrick's plea that an actual test be made to prove or disprove his contention that embalming fluid and not chloroform was the cause of the condition of Rice's body was granted during the day. It was the office of District Attorney Jerome and not the defense of Patrick, however, which has undertaken the investigation. Several times during the years in which Patrick has fought his case the convicted man begged condemned prisoners to allow his counsel to experiment on their bodies after death in order to disprove that Rice died from the application of chloroform. As Valet Jones testified, and to prove Patrick's allegation that Rice died of general debility. It was Patrick's contention that the embalming fluid administered after Rice's death produced and would produce in another case, conditions such as physicians who testified in the case ascribed to chloroform poisoning.

It was announced from District Attorney Jerome's office during the day that the experiments to test Patrick's theory have been begun under the direction of that office. The two persons whose bodies are to be used to either aid in giving Patrick his liberty or defeating his efforts to secure a new trial are patients who died in the Metropolitan hospital a few days ago. They were Luigi Carabotti, aged fifty-six years, and Rachael Williams, a colored woman who was seventy years old at her death. One was older and the other younger than Rice. Their bodies will be embalmed with the same sort of fluid which was used in Rice's case. After a suitable time has elapsed autopsies will be performed.

### Pugilist Dies After Fight.

Toronto, Ont., March 30.—Shenston Wyer of Manchester, Eng., one of the contestants in the bantam, 105-pound class, at the boxing tournament here at night, showed signs of collapse in his bout with Robert Lauder, and the referee stopped the fight. Wyer was removed to St. Michael's hospital, where he died an hour later.

## MINERS WILL STRIKE

MORE THAN HALF A MILLION MEN EXPECTED TO QUIT WORK SATURDAY NIGHT.

### CONFERENCE IS A FAILURE

PRESIDENT ROOSEVELT ASKED TO APPOINT AN INVESTIGATING COMMISSION.

Indianapolis, March 30.—Miners and operators of the bituminous fields in the Central competitive district dissolved their joint conference here during the day without reaching an agreement on the disputed wage scale for 1906. Representatives of the two interests from the Southwestern district will probably follow this lead. As a result only the intervention of unforeseen circumstances can prevent a cessation of work by 178,000 miners after midnight Saturday, when the present agreement expires. On top of this came an announcement that 150,000 mine workers in the anthracite field will be instructed to quit at the same time. These actions also affect 206,500 miners in other districts and involve all told 534,500 workmen in the fourteen states and territories.

A national convention of the miners will be held during the day to decide whether local unions will be allowed to work where the advance demanded by them is offered. Operators employing 25,000 miners in Western Pennsylvania, Illinois and Ohio are ready to pay the advance, but a resolution passed by the miners in January and providing for a unit agreement may block their efforts to preserve peace.

### Will Expire on Saturday.

The wage scales of all miners both anthracite and bituminous will expire Saturday, except in Tennessee and Alabama, where the scale will expire in September. A national official of the United Mine Workers said during the evening:

"It is a foregone conclusion that all the miners whose scales expire Saturday will cease work until officially notified by the national and district officers that contract arrangements have been made governing their scales."

The bituminous miners affected directly and indirectly by the disruption of the conference number 386,500, distributed as follows:

Pennsylvania, 160,000; Maryland, 5,000; West Virginia, 35,000; Virginia, 15,000; Ohio, 40,000; Indiana, 15,000; Illinois, 53,000; Iowa, 14,000; Michigan, 3,500; Kentucky, 4,000; and the Southwestern states, 40,000. Of these 160,000 are unorganized.

All districts have in the past based their settlements on the result in the Central competitive field, composed of Western Pennsylvania, Illinois, Ohio and Indiana.

### Final Vote in the Conference.

The final vote in the conference of the Central competitive field, on which the other districts base their settlements, was upon a motion offered by President Mitchell of the United Mine Workers to adopt the wage scale of 1903, which would have been an increase in wages of 5.55 per cent. The operators of Illinois, Indiana and Ohio voted against the proposition, thus defeating it, and the disruption of the conference followed. Operators of Western Pennsylvania and the miners of the four states voted for it.

F. T. Robbins and other operators representing about one-third of the coal production of Western Pennsylvania, Ohio, Indiana and Illinois, offered to pay the advance and urged the miners to continue work in their mines 'respective of conditions at other shafts.

A session of the miners' convention during the day formally indorsed the demand for the 1903 scale and the miners cast their vote in joint conference for this demand as their ultimatum.

Operators of Illinois, Indiana and Ohio and those of Western Pennsylvania who are opposed to paying an increase in wages, held an executive session at night. They adopted resolutions asking President Roosevelt to appoint a commission to investigate the coal situation in all its phases and report to the president of the United States its findings, together with its recommendations. The commission, if appointed, is to have power to administer oaths and compel attendance of witnesses.

### IN ANTHRACITE DISTRICT.

Miners' Scale Committee Orders Suspension of Work.

Indianapolis, March 30.—The anthracite miners' scale committee during the day issued orders for a suspension of mining in the three anthracite districts, beginning Monday morning. The committee notified President

Baer that the miners' scale committee will meet the operators' scale committee in New York Tuesday at 10 a. m.

The committee instructed the anthracite miners, except the men necessary to run the pumps and preserve the properties, to suspend work pending further instructions.

The entire miners' committee will meet in New York at 8 o'clock Tuesday night to hear the report of the joint sub-committee.

The committee which met during the evening consisted of three executive board members from the anthracite districts, the three national board members from those districts and President Mitchell. This committee had been given power to formulate the demands of the mine workers.

The meeting was held at the national headquarters of United Mine Workers. The session lasted two hours.

### PASSED BY THE SENATE.

Bill to Reorganize Medical Department of the Army.

Washington, March 30.—The senate during the day listened to speeches on the railroad bill by Messrs. Clay, Hale and Newlands and then debated and passed a bill which provides for the reorganization of the medical department of the army by authorizing the appointment of officers to take the place of contract surgeons.

All the senators who spoke on the rate bill indicated a purpose to support it, but Mr. Clay expressed the hope that it would be amended as to afford a limited court review of the orders of the interstate commerce commission.

Mr. Hale criticised the military medical bill as showing a tendency to increase the army, which he said was not desirable in a time of peace.

### HOUSE PUTS IN A BUSY DAY.

Makes Considerable Progress on an Appropriation Bill.

Washington, March 30.—The house put in a busy day, considerable progress having been made on the legislative, executive and judicial appropriation bill. The committee on appropriations suffered a defeat in the committee of the whole by a vote of 58 to 22 expunging a paragraph from the bill which alleged to be properly a part of the postoffice bill. An increase of \$10,000 over the appropriation carried by the bill was voted for confidential agents of the interior department to aid in the ferreting out of land frauds.

### BOLD PLAN FRUSTRATED.

Attempt of Russian Students to Rob a Bank Is Foiled.

Kharkoff, Russia, March 30.—As daring as the robbery of the Credit Mutual bank at Moscow recently was an attempt made in broad daylight during the day to rob the Volga Komma bank by several college and technological students. The young men quietly walked into the bank, which was filled with customers, drew revolvers and ordered everybody to hold up their hands. Most of the employees fled in panic, but one cool-headed clerk attracted the attention of guards outside, who immediately barred the entrance to the bank. The students, finding themselves trapped, smashed the windows, jumped to the street and attempted to escape under cover of revolver fire. One policeman was mortally wounded. Four of the would-be robbers were captured.

### TWO MINERS KILLED.

Four Others Injured by the Falling of a Skip.

Duluth, March 30.—A special from Ironwood, Mich., says: A skip that was being hoisted from the bottom of the Ottawa mine, one mile west of Hurley, during the afternoon, fell, killing two miners and injuring four. Immediately afterward the miners made a demand on the superintendent that work be stopped until the bodies were recovered. He refused to grant the request and the men became greatly excited and threatened violence. A panic followed in the pits and the mine was idle for an hour.

The dead miners lie in twenty feet of water at the bottom of the shaft and an effort is being made to get the bodies out.

### WATERS RECEDING RAPIDLY.

Flood Situation in Iowa Greatly Improved.

Waterloo, Ia., March 30.—The waters of the Cedar river are receding rapidly. Westfield is now showing above the water, but the mud and slime cover everything and much work will have to be done to clean the factories and homes. Work is being pushed by the street car company on the rebuilding of its tracks to Cedar Falls and the Rock Island and the Illinois Central railroads are repairing washouts here and at Cedar Falls.

### Wisconsin Bank Closed.

Baraboo, Wis., March 30.—Bank Examiner Bergh of Madison has closed the bank of North Freedom. No cause is given for closing the institution. The deposits are \$60,000 and the capital is \$10,000 and it is said here that there is plenty of money to pay creditors.

## BAFFLES THE POLICE

MYSTERY SURROUNDING TRAGEDY AT MINNEAPOLIS IS DEEPER THAN EVER.

### KNIVES BOUGHT IN DULUTH

THE ONLY CLUE THAT APPEARS LIKELY TO SHED LIGHT ON SEXTUPLE MURDER.

Duluth, March 30.—Instead of clearing up the mystery of the murder of six Macedonians in a Minneapolis dwelling the arrest in this city during the day of ten persons on suspicion has only deepened the mystery, which has already disarmed the police.

It was believed that those now in custody here were in some way connected with the crime, and the Minneapolis police asserted that the key to the mystery could be found in this city.

This suspicion was confirmed in a way by the later developments of the case during the evening, when it was learned by the police that six hunting knives were sold by the Kelly Hardware company of this city to foreigners one day last week. An employee of the company left during the evening for Minneapolis for the purpose of identifying the hunting knives found in the house of slaughter after the crime as having belonged to his stock. This is regarded by the Duluth police as one of the most important clues that has been struck and much will depend on the result, as it is known and admitted by Sokuloff, the spokesman of the suspects, that he and several of his countrymen passed through the city last week on their way from Albion, where they had been employed during the winter, for Minneapolis. Whether any of the persons arrested as suspects besides Sokuloff were in the party at that time, or whether it was other members of the Macedonian colony at the Head of the Lakes, is not known.

### Do Not Act Guilty.

"For persons detained on suspicion of a terrible crime," said Chief Troyer, "these foreigners, if guilty, have certainly proven themselves to be good actors."

"Acting on information received, we went to a lodging house at 732½ West Superior street, and in a room packed with thirty foreigners, asked for a man and several of his friends who came from Minneapolis. Sokuloff promptly stepped forward and in response to our demands told of eight others, the tenth man having left the building temporarily. He volunteered to assist us in finding this man and accompanied Captain Resche, identified him on the street. They gave us all possible assistance in our search for information, conducted themselves quietly and made no protest whatever against the investigation. Sokuloff, the victims of the tragedy and twenty-two other countrymen, according to Sokuloff, have worked together for two years and were the best of friends, several of the party being blood relations. During the past four months the thirty, excepting the eight who arrived in Minneapolis Saturday from the old country, have been employed at Albion. Sokuloff says he left the Albion camp last week for Minneapolis. When he arrived, he says, the six victims were in the house that proved their tomb. They were with him at Albion, but he declares he left that station two days ahead of the remainder of the party and never saw them again until he met them in Minneapolis. For three days, then, sixteen of the Macedonians, including the victims, were together in the house of death."

### No Attempt at Concealment.

In giving his impressions without expressing a positive opinion, Chief Troyer points to the fact that the per-

sons held here made no attempt to conceal the fact that their destination was Duluth, and in broad daylight bought their tickets and checked their baggage to this city. Sokuloff told Chief Troyer that the reason the victims remained behind was that they had been assigned to lighter railroad section work at Salem, N. D., and intended going to that city at once.

Detective Salvo of Minneapolis, accompanied by Masterson, owner of the house where the sextuple tragedy took place, arrived during the day. Masterson to identify the Macedonians as members of the crowd that occupied his dwelling, and Salvo to enlist the aid of the Duluth department in securing additional clues. Masterson's trip was useless because Sokuloff several hours before his arrival admitted all that Masterson was expected to prove.

Masterson, accompanied by Petros Staja, one of the suspects and a cousin of one of the murdered men, left during the evening for Minneapolis.

Staja will attempt to aid the police by identifying the victims by name, and with such other information as will serve to throw light on their movements from the time they left Albion up to the last moment he saw them alive. If, as is asserted by Sokuloff, Staja was one of the arrivals last week from the old country, he can aid the police but little except in regard to establishing the identity of the victims.

Up to the discovery of the clue which indicated that the hunting knives were purchased in this city last week at about the time a large party of foreigners were passing through this city, the police were inclined to the theory that none of the prisoners had anything to do with the crime. The latest clue, however, plunges the affair in deeper mystery.

According to Sokuloff, the correct names of the men murdered are:

Nikola Jaless, Andri Jaless, Angelo Jaless, Thomas Jaless, Krispin Wuvkoss and Krivie Mile.

#### CARD FROM H. P. DUNN & CO.

Their Liberal Offer to Treat Worst Case of Catarrh in Brainerd.

To the Editor:

For some time we have had an opportunity to watch the results following the use of Hyomei, a treatment for catarrh that cures by breathing medicated air, absolutely without any stomach dosing. The results have been so remarkable that we feel justified in making a public offer to treat the worst case of catarrh in Brainerd with the understanding that if Hyomei does not cure, it will cost absolutely nothing.

The complete Hyomei outfit costs only \$1, and consists of an inhaler that can be carried in the vest-pocket, a medicine dropper and a bottle of Hyomei. Should this not be enough for a cure, extra bottles of Hyomei can be obtained for 50 cents. We hope this offer will be accepted by many of your readers.

Very truly yours,  
H. P. DUNN & CO.

Don't forget the opening at Mrs. J. K. Pearce's on Saturday, March 31st. 25212

#### WERE SHAKEN UP SOME

Passengers on the Minnesota & International Got a Jolting at Jenkins Yesterday

E. H. Simmons came in from his first trip for the Armour Packing company yesterday afternoon. Sim says they are trying to break him in right. On the way down the next to the last car in the train took the side track in entering the yard at Jenkins and after twisting up the rails the last two cars ran clear to the depot on the ties. No serious damage was done beyond delaying the train over two hours and giving the passengers a good scare. The cars held to the ties and Engineer Hallett did not know that he had any cars off the track until he pulled up at the depot.

#### NORTH LONG LAKE.

Agnes Gibb spent Sunday at home.

Elsworth Martin came out to Gibb's last Saturday.

The debating society will meet Wednesday, April 4.

Mrs. P. S. Taylor has been having the gripe the past week

Walter Long has rented John Peterson's farm for one year.

Mrs. Gust Juline has been quite sick but is able to be about again.

Carrie M. Hughey is expected home Friday to spend the Easter vacation.

There will be Sunday school Sunday, April 1, at 2 p. m. Everybody welcome.

John Gibb had the misfortune to have one of his horses laid up the past week.

R. B. Thompson and Dunk Thompson will leave for Cedar Falls, Iowa, to work. They expect to be gone about eight months.

Quite a lot of people gathered at the school house Sunday to hear Rev. H. Knowles but as he did not come they had a song service.

The many friends of Mrs. Otterson were sorry to hear of the drowning of her brother in South Africa, and we wish to extend our sympathy to her in this hour of sorrow.

I see by a notice posted at Hughey's feed mill that he will grind only two days more this season after March 31, viz: April 6 and 13.

#### ELECTIONS IN RUSSIA.

Twelve Conservatives Chosen Members of the Council of the Empire.

St. Petersburg, March 30.—The first actual elections to the Russian national parliament took place during the day, when twelve Conservatives were chosen members of the council of the empire by a congress composed of representatives of the associations of trade and industry throughout European Russia. There was no speech-making. The new members are all well known men of affairs and of high standing in their respective communities. Former Minister of Commerce Timiriaeff, who presided over the congress, was unanimously elected as one of the delegation and he is probably destined to be the leader of the Liberals in the chamber. The other new members are:

M. Yassouninsky and M. Glezmer, members of the St. Petersburg council of commerce and industry; M. Ayda-koff, president of the industrial coal and metal congress, Kharkoff; M. Goudasoff, representing the Baku bourse committee; M. Khananko of the Kieff bourse; M. Moukhine, director of the Volga, Komma bank, Kharkoff; M. Krestovni, president of the Moscow bourse committee; M. Roehwand of the Warsaw bourse committee; M. Kramer of the Riga bourse; M. Baeveline of the Nizhni Novgorod bourse; M. Kozell, a manufacturer of Catherineburg.

#### NEW JERSEY IS SPEEDY.

Proves to Be the Fastest American Battleship.

Boston, March 30.—The performance during the day of the battleship New Jersey in maintaining a speed of 19.18 knots an hour in a four-hour endurance trip off the New England coast, coupled with her showing Wednesday over a measured mile at Rockland, Me., at a 19.48 knot an hour gait, places the ship at the head of all American built battleships, so far as speed is concerned.

At one time the New Jersey's speed reached 19.278 knots an hour for a period of fifteen minutes, while her lowest for a similar period was 18.960.

Shortly after the conclusion of the run the minor tests of turning, stopping and full speed astern were held and pronounced by the trial board to be successful.

#### Davidson Succeeds Babcock.

Washington, March 30.—At a meeting of the Republican members of the Wisconsin delegation in congress during the day Representative James H. Davidson of the Eighth district was chosen to represent the state on the Republican congressional campaign committee as the successor of Representative Babcock, who retires as chairman of that committee.

#### Young Farmer a Suicide.

Le Sueur, Inn., March 30.—William Griffin, a young unmarried farmer of Derrynane township in this county, committed suicide at night by hanging himself in a granary on his father's farm. No cause is known.

#### NEW TIME CARD

#### ABOUT MAY FIRST

One Said to be Projected That Will Make Important Changes In Schedule

#### NIGHT TRAIN MAY BE PUT ON

No Trains to be Run on Ripple Extension While Ballasting Track

There is a rumor current among railroad men that a new time card will go into effect about the first of May on the St. Paul division that will make quite a shaking up of trains in Brainerd. Of course it contains the usual rumored night train to Bemidji and other trimmings to suit. The matter, however, is still up in the air and even the higher officials have made no decision on the matter at presnet.

It is also told among the M. & I. men that orders have gone out that the mixed train now being run on the Ripple extension will be abandoned as soon as it is possible to set a steam shovel at work and that several work trains will be put on and the road ballasted as rapidly as possible to get it in shape for the summer passenger travel.

There is a rumor from the twin cities today to the effect that there will be a night train put on which will pass St. Cloud about 4 o'clock in the afternoon and reaching Brainerd about six or seven o'clock. When it will take effect no one seems to know.

#### Woman Killed by an Elevator.

Washington, March 30.—Mrs. Mary C. Wallace of Denver was fatally injured in the public elevator in the senate wing of the Capitol during the day by attempting to leave the car while it was in motion. She died shortly before 6 o'clock. A coroner's inquest will be held.

#### Wyoming Flood Subsiding.

Casper, Wyo., March 30.—The flood in the North Platte river is subsiding and all danger is now believed to be past. Great damage was done along the valley of the Platte to ranch and farm property, especially in the low lands.

#### TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Brainerd

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the urine when the kidneys are well are retained in the body when the kidneys are sick. Kidneys and bladder get inflamed and swollen, crowding the delicate female organs nearby and sometimes displacing them. This is the true cause of many bearing-down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, the remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Brainerd woman tell you about Doan's Kidney Pills.

Mrs. J. H. Zellers, of 915 Main St., Brainerd, Minn., says: "I believe that after what Doan's Kidney Pills did for me they will help anyone similarly troubled. Before using them I suffered for six months from my kidneys. There was a miserable feeling of pressure over those organs and the secretions were scanty. Besides this there was a heavy pain across the small of my back. A box of Doan's Kidney Pills were gotten at a drug store and I took them with the result that they acted like a charm. I can truthfully say that I have not had a symptom since."

On October 28th, 1904, six years after giving the above statement, Mrs. Zellers says: "I am just as glad to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since I used Doan's Kidney Pills, and must give them credit for a permanent cure."

### STEAM DITCHING MACHINE

Wm. Bergh & Son Are Fitting One Up  
And Will Go After County And  
State Ditch Work

Wm. Bergh, the Laurel street merchant, and his son, Theodore Bergh, who are operating under the name of Wm. Bergh & Son, are fitting up a steam ditching machine and are going after the state work and some of the heavier county work. The machine is one of the so-called "clam shell" machines, built somewhat on the plan of the steam shovel used on railroads and will do the work of many men. The firm also has a complete outfit for bridge work, which at present is at Gull lake, but will be overhauled and brought to Brainerd at once, as this will be their headquarters hereafter.

## MAY SECURE WATER WORKS

Section of the New Code Provides for Taking Over Public Service Franchise

### PLANS TO BE CONSIDERED

There Must be Two-Thirds Vote  
At Election Called for that  
Purpose

The new code provides for the acquiring of public service plants operating under franchise as is shown by section 2843 which is given in full below:

"The council of any city or village, at the end of any period of five years from the granting of a franchise for the operation of any street railway, telephone, water works, gas works, or any electric light, heat, or power works, when authorized so to do by a two-thirds majority of the votes cast upon the question, may acquire and thereafter operate the same upon paying to the corporation or person owning the franchise the value of such property, to be ascertained in the manner provided by law for acquiring property under the right of eminent domain, upon petition of its governing body. Such vote shall be taken at a special election called for that purpose, and held within three months next preceding the expiration of said five year period. The consideration for such works or property shall first be applied to the payment of any incumbrances thereon, and the remainder, if any, shall be paid to the owner of said franchise."

Just how this provision will affect the solution of the water works question in Brainerd is a matter upon which there is a difference of opinion, some claiming that it applies to corporations already doing business others that it only affects franchises hereafter to be granted.

## FEMALE BANDIT AT CASS LAKE

According to Reports From There a  
Lone Woman is Holding Men up---  
At Least Four Contributed

According to the following appearing in the Minneapolis Journal under a Bemidji date line the people are being terrorized by a lone female bandit:

"According to reports that have been received here, Cass Lake has had the distinction of having the first successful female bandit ever brought before the public in the northwest.

"The details of the affair are somewhat meager, as there is an apparent disposition on the part of the Cass Lakers to keep the matter quiet, but it is understood that the feminine bandit successfully held up three men at the point of a revolver and relieved them of sums aggregating \$500.

"One victim gave up \$200 under the persuasion of the ugly looking revolver in the hands of the masked woman, while two others in turn contributed \$100 each. The amount donated by the fourth victim of the holdup is not exactly known.

"The holdups took place on the street late at night. The woman was arrested in the morning and \$500 and the revolver were found in her possession."

Later dispatches from Cass Lake deny the story entirely.

### MUSIC AND DRAMA.

#### "THE ISLE OF SPICE" TONIGHT

The "Isle of Spice" company with its 60 people arrived in the city this morning from the west and will appear at the Brainerd opera house tonight.

The "Isle of Spice" constitutes a combination of melodious songs, graceful dances and ensembles, backed by handsome scenery that give pleasure. The entertainment abounds with pleasing diversions, tuneful and mirth provoking, and the artists acquit themselves in such a way as to win numerous recalls and to stir the audience to enthusiasm.

Charles A. Pusey as Bompoka, sixty-seventh king of Nicobar, is irresistible in his comedy, and sings his parts so well that he early wins favor from his audiences, his song, "The Goo Goo Man," being particularly winning. Other whose work do credit to their singing and acting are W. J. McGraw as Micky O'Grady, Jack Collins as Slubby Mackinaw, John L. Weber as Kashon, Charles Ferguson as Konner, Ethel Tilton, Louise Gould, Fanny Ide, Mayme Fulton, Cora Landis, Bert Wainwright and a well trained chorus of a score or more of handsome young women.

#### "YON YONSON"

The original Swedish-American characterization, "Yon Yonson," will appear at the Brainerd opera house on April 3 for a return visit. During the last fifteen years "Yon Yonson" has proven a great success and the indications are that the famous play will continue to do so as long as the high standard of the production is maintained.

## TRYING TO SELL TEAM AT BRAINERD

Man Supposed to be Motley Murderer was Trying to Sell  
Team in Brainerd

### EVIDENTLY RETURNED TO MOTLEY

Man Taken to Walker Yesterday  
On Suspicion, But Will Be  
Released at Once

It is believed here that the murderer of Pat Hally, of Motley, boldly came to Brainerd and tried to sell the murdered man's team to several parties here. He is described as a small man with a dark complexion and approached several horsemen wanting to sell a team, a black mare and bay horse. His anxiety to dispose of them at once aroused suspicion and Sheriff Erickson started out to find him intending to lock him up on suspicion, but found that he had left the city, driving back toward Motley. That he was the murderer and went back and left the team at Hally's place is almost certain, as the team is almost positively identified as the one offered here.

Dr. Wilson took a man from Motley to Walker last night, who was arrested on suspicion, and whose name is suppressed, but is said that he will be released at once because of the latter clues.

## Not Worth the Living

Sorry Condition of Many Today. Liberal Offer by H. P. Dunn & Co.

Those who never have any stomach troubles and whose digestion is like that of an ostrich cannot possibly understand the sorry condition of many in Brainerd today.

Life does not seem worth the living; they bear up with nervous irritation, sleeplessness, pain and misery in the stomach, headaches, backaches, and have a constant fear that what they eat is going to disagree with them and cause a still greater distress.

In Mi-o-na there is a remedy that restores the lost functions of the digestive system, revives flagging nutrition, and aids in the assimilation of food. This remedy soothes and heals the irritated and inflamed walls of the stomach, strengthens the nerve centers of the digestive system and makes a permanent and positive cure in all forms of stomach trouble, excepting cancer.

H. P. Dunn & Co. make a very liberal offer in connection with Mi-o-na, giving a guarantee with every 50 cent box they sell that if the remedy does not give satisfaction, it will cost nothing. Begin its use at once, and see how quickly you will get relief.

**FIRE IS EXTINGUISHED.**

Gas Well Below Caney, Kan., Finally Capped.

Independence, Kan., March 30.—The fire in the Kansas Natural Gas company's big gas well below Caney, which has been burning since Feb. 23, was successfully extinguished during the day. The second hood, which was a failure two weeks ago, was placed over the well during the afternoon. The great difficulty now will be to build a derrick over the well, shut in the dropped tubing and retube and shut in the well. After the fire is put out the gas was turned loose. It is now blowing out of the top of the well.

The readers of this paper will be pleased to learn that there is at least one real disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Sent for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. **GRAVE AND DELICATE CRISIS.**

Confronts New British Government in South Africa.

London, March 30.—The new government is finding continual trouble in its dealings with South Africa. By intervening to delay the execution of twelve natives convicted of having been concerned in the ambush and murder of Police Inspector Hunt in the recent native rising in Natal, which has been attributed to the Ethiopian movement, the imperial authorities have evoked an admittedly grave and delicate crisis, which will require the most careful handling. Dispatches from South African colonies show that the colonists are boiling with indignation and calling meetings to protest against a procedure which they regard as being calculated to endanger the safety of the whole white population. Fuel has been added to the fire apparently by the unjustified importation of Under Colonial Secretary Churchill's name into the affair, for which the Earl of Elgin, colonial secretary, assumes full responsibility.

## RIOTING AT WINNIPEG

STRIKE OF STREET CAR MEN IN THAT CITY RESULTS IN SERIOUS DISORDERS.

STONE THE STRIKEBREAKERS

MOBS THROW ROCKS AT THE MEN EMPLOYED IN OPERATING THE STREET CARS.

Winnipeg, Man., March 30.—After a mass meeting lasting nearly all night, the conductors and motormen in the employ of the local street railway company went on strike during the morning. This action was expected and the company had in readiness a large number of men from Eastern Canada and American cities to operate the cars. Scenes of violence such as never before have been witnessed on the streets of Winnipeg followed the attempts to run the street cars.

A howling mob of strike sympathizers gathered and showered bricks, stones and mud on every car. Drivers of drays took keen delight in blocking traffic by driving on tracks. Wires were cut and switches opened, and finally the attempt to run cars was abandoned. The passengers in the few cars that managed to get through on Main street were principally detectives and strikebreakers, said to have been brought here from Chicago.

The latter were armed with baseball bats, which they used freely and without discrimination. Many fights occurred and the city police force was busy making arrests of disturbers.

The men most seriously injured were two union pickets at the car barns, who, it is claimed, were attacked without provocation by strikebreakers.

Strike sympathizers at night set fire to two cars derailed in the north end of town. One was practically destroyed. Firemen were interfered with by the mob when extinguishing the flames, but by turning the hose on the crowd succeeded in dispersing them.

Mayor Sharpe issued a proclamation asking co-operation of all true citizens in maintaining order.

On account of the day's incidents the traction company has requested military protection.

The men demand an increase in wages of three cents an hour.

**INSURANCE MEASURES.**

Ready to Be Reported to the New York Legislature.

Albany, N. Y., March 30.—The scene of the activities of the joint special insurance investigating committee was transferred to Albany during the afternoon, when Chairman Armstrong and Counsel Hughes arrived from New York and went into executive session with the other members of the special committee and the two standing committees on insurance.

The joint legislative committees at 1:30 o'clock a. m. finished their work on the proposed legislation resulting from the insurance investigation and the bills as finally recommended by the special investigating committee will be reported in both houses during the day and sent down for printing.

At the close of the meeting Senator Armstrong made a statement substantially as follows:

The bills relative to lobbying, political contributions by corporations, perjury, falsification of entries, rebates and the acquisition of real property by insurance companies stand substantially unchanged.

The bills establishing standard forms of policies and relative to co-operative and assessment companies have been consolidated with the general bill amending the insurance law.

The most important amendments are those relating to investments of insurance companies, and expense limitations. Investments in stocks and in collateral trust bonds are still prohibited but the companies are permitted to retain collateral trust bonds now in hand.

They are still required to dispose of their stockholdings as in the original bill.

Generally speaking, the requirements established are made applicable to New York state companies only; except that the restrictions on expense of new business are enforced upon outside companies.

The assembly during the day passed the bill postponing the annual elections of the purely mutual companies of this state, the New York Life, the Mutual Reserve of New York and the Security Mutual Life of Binghamton. There was a brief discussion as to whether the bill will exclude present directors or officers from re-election, the consensus of opinion being that it will not. It is believed that Governor Higgins will sign the bill without delay.
